

VESTA Great Value Full Size Photo/Spotting Scope Tripod

If you're new to photography or you've just got your first spotting scope and you're wanting to try out a tripod, then VESTA tripods are a great option.

Use the pan handle to locate and track your subject with ease. Turning the handle controls the tilt lock, while the 360° panning movement can be locked using the locking knob on the side. This leaves a hand free to focus, zoom or take your photo.

This is the original dual axis tripod head, with a top plate that rotates 360° for perfect panoramas. Simply loosen the locking knob (A), rotate into position and lock.

While technically a 2-way pan-head which makes landscape shots a breeze, you can easily switch to portrait. Place the head at 90°, loosen the locking knob (A), rotate into position and lock.

Improve your smartphonography or vlogging with a VEO PA-10 smartphone adaptor kit (not included). This includes a smartphone clamp (for smartphones up to 86mm wide) and a Bluetooth remote control for IOS or Android

Ideal For:

- Astro
- Filming
- Landscape
- Long Lens
- Low Angle
- Macro
- Panoramas
- Product
- Smartphone
- Spotting Scopes
- Studio
- Travel

Added Value Features:

- Multi-Mount
- Low Angle Adaptor
- Three Leg Angles
- Monopod Leg
- Easy Clean Leg Locks
- Spiked Feet
- Arca compatible
- Pan Lock
- Portrait Mode
- Smartphone Holder
- Tripod Bag

Model Naming:

VESTA	20	3	A	P
Series	20mm	3 sections	Aluminium	Pan head
not-CNC	Legs			

Model	Folded Height	Max Height	Max Load	Head (not Arca compatible)	Quick Shoe	Weight
VESTA 203AP	57cm	155cm	3.5kg	PH-23	QS-29	1105g
VESTA 233AP	58cm	155cm	3.5kg	PH-23	QS-29	1275g
VEO PA-10	-	-	-	Smartphone	-	-

This is a great starter, or value tripod, but if you are sure you want a good tripod, then there are reasons to trade up:

- Not Arca compatible so can only use it with the QS-29 quick release plate.
- Maximum leg diameter is 23mm so may want more stable 26mm legs.
- Only one leg angle (all others have three), so not able to consider low angle/macro shots.
- Non-adjustable leg locks, so if broken, cannot be replaced.
- No accessories such as a bag or spike feet.
